I OPPOSE THE DRAFT M.O.U. being proposed by the FDA. In particular, I OBJECT to the definition of "inordinate amount" which restricts the availability and the right to obtain medically necessary compounded medications by limiting the number of prescriptions that can be shipped across state lines from specialized compounding pharmacies.

COMMENTS: Please do not restrict the
availability of compounded medication!
I finally have found a compounded
medication that makes it possible for
me to have my hormone levels adjusted.
I waited many years to even tell my
doctor and after being on medicine now
I can't believe I waited so long. If I
could buy the medicine at the
pharmacy where I normally fill our
prescriptions, I would - but that
option is not available to me. The
only way I can continue is through
the specialized pharmacy. Please do not

Please fold, seal, and mail by March 22

98N-1265
restrict the compounded medicine
from reaching people who truly
benefit from them. Thank you
Sincerely, Eileen E. Karlensner
